

# How PersonalFit™ PLUS for Symphony® streamlines hospital processes

## Saving time on busy wards

Time is a precious commodity for both healthcare professionals and mothers, especially in busy hospitals. PersonalFit™ PLUS has been designed to be as easy to assemble, use, and clean as possible to free

up time to focus on the thing that matters most: mother and infant wellbeing. In addition, PersonalFit™ PLUS has been proven to yield more milk in the same time, compared to standard pump sets.<sup>1</sup>

After **15** mins of pumping: **11%** more milk

More time

more care

## Quick and easy to use and reprocess

All PersonalFit™ PLUS pump sets have the same time-saving features:

### Fewer, larger parts

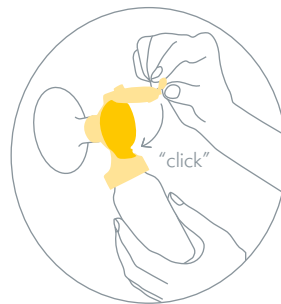

Simpler design than standard pump sets, which helps make handling easier.<sup>2</sup>

### Intuitive assembly

- Slot in breast shield.
- Affix tubing.
- Screw on bottle.

### One-click connector

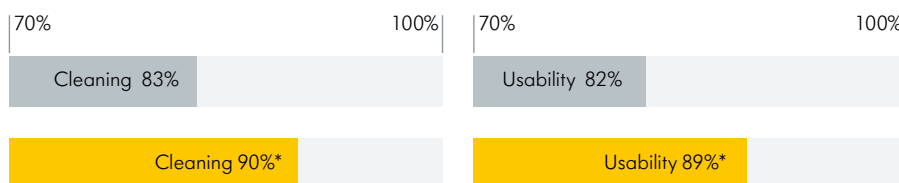

The membrane that provides overflow protection fits simply into the connector.

In addition, disposable PersonalFit™ PLUS pump sets can be used straight from the packaging, while reusable versions are easy to reprocess.

## Tested and proven in hospitals

In clinical research, healthcare professionals observed mothers using PersonalFit™ PLUS pump sets and graded their experience of cleaning them. They also accessed overall usability. The results showed a statistically significant improvement:<sup>2</sup>

### Score

■ Standard pump set ■ PersonalFit™ PLUS \*Denotes statistically significant results (p<0.05)
